- 1- Apprendre les positions ( 5mn par jour )
- 2- Les jouer sur un fond sonore ( en sol min. ) tous les styles peuvent être abordés.
- 3- Repérer la tonique sur chaque position
- 4- Jouer dans toutes les tonalités
- 5- Laisse toi aller en improvisant, pense aux formules de rythme et mélodies, n'essaye pas de jouer toutes les cordes, deux ou trois suffisent à créer un solo .....
- 6- Pendant la période d'apprentissage des gammes, écoute un maximum de guitariste soliste.
